NEW BOARD OF EDUCATION

The new Board of Education, which will hold the destiny of the Barbourville Graded and High Schools in its hands for the next few years, was officially inducted into the office on Monday night by Supt. E. H. Hemphill, following the formal handing over of the records by F. W. Golden, retiring secretary. As Mr. Golden read the minutes of the past few meetings, Dr. W. C. Black, retiring chairman, explained various items for the benefit of the incoming board.

Supt. Hemphill was in a happy vein and his short talk on co-operation brought forth applause mixed with laughter.

Officers elected were:—Robert W. Cole, Chairman; J. Frank Hawn, Secretary. The new members chose their terms of office by lot and the result was as follows:—Robert W. Cole, C. A. Steele, W. G. Riley, to serve two years. Judge W. R. Lay, E. E. Evans and J. Frank Hawn to serve four years. At the end of two years an election will be held to fill the vacancies of those who serve the shorter term.

Short talks were made by Prof. W. H. Buck, W. C. Black, Robert W. Cole and Judge W. R. Lay, stressing the importance of placing the welfare of the children above every consideration.

The new members then adjourned and the teachers of the school had provided a delicious lunch at which Mrs. W. H. Buck, who finished musician, played selections and Miss Cella Carr sang two songs, all of which received hearty applause. Short talks by the new members of the board terminated one of the pleasant affairs in the annals of the school.

James Bullock Wednesday of last week joined the Order of the Non-Appendix, being initiated therein by Drs. J. G. Tye and Leslie Logan. He ate breakfast at home Tuesday of this week.

C. M. Powers, who some weeks ago received a crushed ankle and burned leg, was operated on for the removal of the leg above the ankle, Wednesday of last week, the bone being so badly crushed it would not knit. Mr. Powers is doing nicely at present. Drs. J. G. Tye and Leslie Logan operated.

The existence of the Logan Sanitarium in Barbourville is a distinct asset as it enables people of this section to save much expense when in need of treatment.

RED CROSS REPORTS

Reports from 173 out of 335 working chapters of the American Red Cross in Lake Division, which embraces Ohio, Indiana, and Kentucky, give a membership of close to 600,000 in the Fourth Roll Call.

Of the chapters which have thus far reported to Lake Division Roll Call headquarters, only 24 have made final returns. Many of the chapters from which preliminary reports have been received are still enrolling members while the Roll Call is yet to be launched by a large number of the 153 chapters not yet heard from.

The chapters outside the metropolitan areas have made the largest comparative increases. A considerable number of chapters which did not enroll a single member in the Roll Call last year have brought in thousands during the Fourth Roll Call.

In Kentucky, Breckenridge County Chapter has made a return of 200 members in this Roll Call, last year reporting 22. Casey County, Ky., obtained 37 members last year, 1,000 this year, and Johnson County 9 last year with 132 this year.

ROOSEVELT PORTRAIT FREE FOR SCHOOLS

Judge F. D. Sampson of the Kentucky Court of Appeals, Frankfort, Ky., has arranged for every school room in Kentucky to have a life size portrait of Theodore Roosevelt free.

On the portrait is printed the last message of Colonel Roosevelt on Americanism sent the night before he died, January 6th, 1919, thru the American Defense Society, of which Judge Sampson is a member. Colonel Roosevelt said: "There can be no divided allegiance in America, a man who comes to this country and becomes a citizen in fact, should be treated on equality with all other citizens. But a man who pretends to be an American and also tries to be something else should not be allowed to remain in this country."

Judge Sampson requests all teachers and Superintendents of schools to co-operate with him in interesting the school children in this work of Americanism. Every school room in the State may have a Roosevelt portrait size 20 x 24 inches free if the school children or parents in the school district will have the portrait framed. One condition is that when the portrait is framed it shall be hung with appropriate ceremonies in which the children should take a part. It would be well if the parents would also take part in the ceremonies when the portrait is hung.

State Superintendent of Public Instruction George Colvin heartily approves of this plan and requests that all teachers in Kentucky write to their respective County Superintendents stating the number of Roosevelt pictures which they will undertake to have properly framed and hung. The American Defense Society furnishes the pictures free. County Superintendents are requested to write to Robert Appleton, former Treasurer, American Defense Society, 116 East 34th St., New York City, stating the number of portraits necessary to supply the schools in the County. There will be no expense in any way for these wonderful life size portraits, done by a famous artist.

During the evening a delicious salad luncheon was served, covers being laid for about thirty-five around a prettily decorated table and a bountiful menu was served. —Middlesboro Exchange.

IN MEMORY OF NIECE JORDAN

It is with deep regret and a sorrowful heart that I attempt to pen this obituary on the life of my friend Niece Jordan, who departed this life December 29th, 1920, at her home, Hammond, Ky.

Mrs. Jordan leaves many relatives and friends to mourn their loss. She was converted to the Baptist Church at an early age and remained a member of that body until her death.

Mrs. Jordan, like all other persons had her human weaknesses but down in her heart dwelt the true womanhood which made her what she was and when overtaken in a faint she was ready and willing to acknowledge and make amends to the extent of her ability.

At the close of the funeral exercises she was laid to rest in the family cemetery beside her many friends. There her body was committed to the tomb, her soul to the God who gave it, to await the resurrection call "Come up higher."

PROF. C. E. AHLER

Receives A Splendid Christmas Present

Prof. C. E. Ahler is a happy man as the result of the generous spirit of Messrs. Charley Owens, Haston Wyrick and Virgil Metcalf, all members of Union College Orchestra.

On Friday morning at chapel service, Dr. E. T. Franklin, wearing his well known smile, made a speech of presentation, at the end of which Dean Ryder stepped into another room and brought forth a saxophone case, which, on being opened, proved to contain a Buescher saxophone, gold plated and beautifully engraved. This was presented to Prof. Ahler as a Christmas gift from the gentlemen above named. It is the best instrument of its kind obtainable, but what makes it most valuable to the proud recipient, is the spirit of brotherly affection which prompted the gift.

The First Thing

We earnestly desire to call your attention to the series of talks on banks and banking that will appear in this space regularly from now on.

They are not austere statistics, learned theories nor complicated problems for "high brow," but just plain, honest, truthful, helpful talks to plain folks, talks that are worth while. They are written out of the ordinary stilted style, for a purpose, yet they are not flippant, foolish or frivolous, for each one carries a message. Watch this space regularly every week.

T. J. Moore, the bustling, rustling salesman for the Haid Dry Goods Co., Jellico, Tenn., has stepped forth to conquer new trade worlds. Last year he did a record business. Faced today with depression, he had only optimism in his mind and insists that with the depleted jobbers' stocks manufacturers will be compelled to get busy to supply ordinary needs alone. He says prices have reached the low level in his line of dry goods and notions. They will be found most satisfactory to the trade.

The Barbourville Brick Co. plant, which has closed down, will probably not be opened again until April 1st. This plant turns loose a large sum of money monthly when in operation. It makes an excellent brick which should be more largely used in the construction of our homes. Brick houses are warmer than wood houses during the winter months, they are infinitely more durable and the fire risk is much smaller. Further, they give an appearance of permanency to a town which attracts citizens from other towns. Use more brick in home building.

TUESDAY CLUB

The annual mid-winter social meeting of the Tuesday Club was held by Mrs. W. B. Minton on December 28th.

All business and literary work was dispensed with and everyone joined in for a genuinely social afternoon together. First the hostess had a musical treat in store. Miss Carr rendered a charming Chopin Waltz and also a Polish National Dance.

Then Mrs. W. H. Buck delighted the Club with her wonderful execution and interpretation of the Spinning Song, a transcription from the Flying Dutchman, and also a waltz from Chopin. All the numbers were greatly enjoyed.

The seventeen members present had contributed seventeen gifts and the hostess had so arranged that each one was presented with a little surprise package. For a little time the Club could easily have been classed with a crowd of children eagerly opening their packages at a Christmas tree.

Mrs. Minton, assisted by her two little daughters and Mrs. Burman who presided at the tea table, served a most delightful and course.

The next regular meeting of the Club will be on January 11 with Mrs. F. D. Sampson.

GRAY SAMARITANS

RESCUING CHILDREN

The Young Women's Christian Association of the United States are keenly interested in the movement for the relief of the starving children of Europe because a group of their members, the Polish Gray Samaritans, have been in charge of distributing food to children in Poland. They have been serving under the American Relief Administration and have conducted food kitchens and distributing stations in all parts of Poland outside Warsaw.

In all the relief work being done in Europe, that of the Polish Grays has been unique because all the girls, though sent from America, were either born in Poland or are of Polish parentage. When the need for social service in their country became acute many girls of Polish descent answered the call of the Young Women's Christian Association for overseas service and enlisted in the preliminary training course that was given in several cities of the United States. From this group thirty girls were chosen and sent to Poland where, since 1918, they have been caring for the children of the country. The distribution of clothing has taken them into all parts of Poland.

They are now spending their entire time in arranging for the feeding of children this winter. Groups of them travel to strategic centers in outlying districts where they set up distributing stations, receive supplies, prepare meals, arrange for impartial distribution and train helpers to continue the work when they are sent on to the next town.

COLUMBUS KNIGHTS
AID CHILD APPEAL

James A. Flaherty, of Philadelphia, supreme knight of the Knights of Columbus, declared that the K. of C., in response to an appeal from Herbert Hoover, chairman of the European Relief Council, had decided to take an exception in their policy of refraining from any national campaign for funds for relief or charitable work.

"The need of the starving and sick children of Europe is so urgent," Mr. Flaherty said, "that the Knights of Columbus feel it duty bound to devote themselves to the common task of raising funds for the relief of these children. An organization it is our intention to conduct no distinct K. of C. drive for funds, although members of the organization are frequent contributors to all charitable drives. But in this case we feel that the emergency calls for the united efforts of all Americans and we consider it a privilege to have partnership in this great work of mercy."

"IS WONDERFUL"
SAYS OHIO WOMAN
Tanlac Did Miss Siegworth So Much Good She Now Sends It To Relatives in England
"It is just wonderful how quickly Tanlac works in building up one all run down and suffering as I was," said Miss Anna Siegworth, R. F. D. No. 32, Harborton, Ohio.
"Nervous indigestion had almost made a wreck of me before I really knew it, and I was in a bad condition when I began taking Tanlac. Most of the troubles that go with a bad stomach attacked me and made me miserable. I had but little desire any time for food, and frequently would turn so sick at the table I would have to leave it.
"What little I ate caused trouble in my stomach and hurt me all over. Sometimes I felt like I was loaded down with lead, and had such bad smothering spells I'd have to gasp for my breath. I tried lots of medicines and just kept on going from bad to worse.
"Finally mother prevailed on me to take Tanlac, and very soon all my troubles were over. It proved to be the very medicine I needed, and helped me right from the start. I've finished my fifth bottle now, have gained eleven pounds of my lost weight, and feel even better than when I was sixteen.
"Tanlac is a grand medicine and I'm glad to tell others what it has done for me. I've just bought two bottles to send to relatives in England."
Tanlac is sold in Barbourville by the Cut-Rate-Drug Co.; in Artemus by J. G. Haskin and in Perman by N. J. Paulkner & Co.

PRIDE AND A FALL

A little boy out on a limb
had a saw,
Which was a source of joy to him.
Said he, "I'll show
See me saw!"

The neighbors cried aloud, "Beware
of the saw."
You must give heed to how and where
A limb you saw
With the saw."

The boy replied, "I'm not afraid.
It's my saw."
And 'twixt himself and tree he made
A deeper flaw
With the saw."

To his surprise the limb soon dropped
'Neath the saw.
The boy repeated as he stopped
And said, "Oh, psaw!"
At the saw."

STRIKE LASTED SIX YEARS

Railroad Walkout That Began in 1914
Has Only Recently Been Offi-
cially Called Off.

Here is a railroad strike that ran
through a world war; stood compla-
cently by while almost the entire com-
plexion of the eastern hemisphere
underwent changes, and might still be
rumbling had not the strike committee
suddenly thought of it, and decided it
officially over. Another strange thing
about the strike is that no one knew
anything about it until it was over.

The strike began March 18, 1914,
when 750 freight trainmen laid down
their brake sticks in the various ter-
minals of the Monongahela division of
the Pennsylvania railroad, declaring
for improved working conditions and
protesting the reduction of train crew.

"It was an outlaw strike," said an
official of the Pennsylvania railroad,
"and was ended by the railroad broth-
erhoods two weeks after its inception."
The strike might have been ended,
but the strike committee never de-
clared it officially off until a meet-
ing the other night.

Most of the men, it is understood,
who went out, returned to work years
ago.

Light of the Spade in History.

At Segontium was established the
last Roman fort, at the terminus of
the military road in North Wales.
It is this Roman fort which British
archeologists now propose to excavate
if the sufficient sum of \$10,000 can be
raised to defray the expenses of the work.

There are few more obscure periods
in the history of Wales than that of
the Roman occupation, and it is not
to be expected that much light will
be thrown upon it by literary records.
But the spade may give us what we
seek in vain from the written or print-
ed page, and excavation has already
yielded valuable results from Cher-
went, Gelliger, Castell Colleen and
Cherses. So far, however, nothing
has been done in the northwest cor-
ner of the principality, that region of
Gwynedd which occupies so large a
space in the history of medieval
Wales. The proposed excavation of
Segontium may enable this gap to be
filled with accurate and extensive
information.

Claims Honors of Columbus.

And now old sea-lashed, weather-
scarred John Scodelo lumbers out of
the grave he has occupied for some
400 years to start a Codi-Penry con-
troversy with the late Christopher Co-
lumbus. Through his present-day
spokesman, Dr. S. S. Larson, librarian
of the University of Copenhagen, old
John, a Dane-Norwegian navigator,
claims he beat Columbus to America
by 14 years. In a recent publication
Doctor Larson, claims Scodelo sailed
by way of Greenland and Iceland and
landed on the mainland of Labrador
in 1476. Doctor Larson's work has
been translated by J. Christian Ray,
head of the medical reference section
of the John Crerar library, Chicago,
who says he believes Scodelo's claim is
authentically established.

Wanted a Short Leave.

After a few moments, she sighed pro-
foundly and said, "Would you mind

that ribbon?"—Exchange.

RENEWED

TESTIMONY

No one in Harboursville who suf-
fers headache, dizziness, or distress-
ing urinary ills can afford to ignore
this Williamsburg man's twice told
story. It is confirmed testimony
that no resident of this locality can
doubt.

J. W. Tuggle, Ex-Deputy sheriff,
Main St., Williamsburg, Ky., says:—
"I had a dull aching pain in the
small of my back and thru my loins,
which gave me considerable trouble.
The kidney secretions were unnat-
ural and at times too frequent in pas-
sage and then again scanty. I con-
cluded to try Doan's Kidney Pills,
and got a box. I was not disa-
pointed in the results. They quickly
drove away the pains and aches and
put my kidneys in good order."

Over three years later, Mr. Tuggle
said:—"Doan's Kidney Pills relieved
me of a bad case of kidney trouble
a few years ago. I have had very
little occasion to use a kidney med-
icine since. I am always glad to
recommend Doan's."

An Airplane Dived in West Virginia

The airplane diving around in the
air over this town Tuesday caused
consternation among our gang of
guineas. The best we could gather
from our understanding of guinea par-
lance, they thought a big hawk was
after them. Frolie, our hulloid, reared
his head back and tried to jump
over the trees in an effort to catch
the monster. The best we could un-
derstand dog Latin he thought it was
an angel coming in disguise and he
knew he had no business fighting
around a printing office. And as for
ourselves, we really thought when he
was flying so low and headed direct
for our residence he was fixing to let
us down a jug of good old yaller corn
just in order to put us next to the
system. At any rate, we all enjoyed
the exhibition.—Huntington News.

Unfortunate Louvain.

The city of Louvain, Belgium, has
been called the "Oxford of the Low
Countries." It has been said that the
city's chief product once was theology,
and that it had a tremendous effort
upon philosophy and religious
thought.

The Louvain library once contained
some 70,000 volumes and about 500
manuscripts, and was attached to the
University of Louvain, founded in
1226. Before the world war the uni-
versity had 2,000 students, but the en-
rollment exceeded 6,000 in the six-
teenth century, says a bulletin of the
National Geographic society.

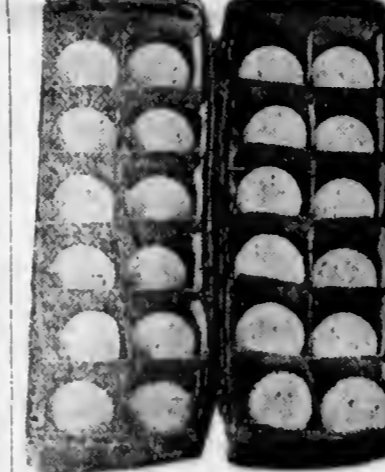

PROFITS IN POULTRY FLOCK

Farmer Should Be Careful to Gather
Eggs Regularly and Market
Them Promptly.

The marketing of the product, par-
ticularly eggs, has an important bear-
ing on the profits of the flock. Under
most conditions it is impossible for
the farmer to seek a special market
for his eggs, but he should be very
careful to see that the eggs are gath-
ered regularly and frequently and
promptly taken to market. Failure to
do this is responsible for the spoiling
of a great many eggs.

When the methods of buying are
such that payment is made for good
eggs only, a plan which is becoming
more widespread and bids fair to be
compulsory in most states, the farmer
will suffer a decided money loss if he

Carefully Packed and Graded.

does not make it his business to see
that all the eggs delivered are fresh
and marketable at full value.

One of the greatest causes of spoiled
eggs during the hot summer season
is the development of chick embryos
in fertile eggs, poultry specialists of
the United States department of ag-
riculture say. This loss is prevent-
able simply by separating infertile
eggs. All that is needed to accom-
plish this is to separate the male
birds from the females as soon as the
breeding season is over. All the eggs
sold will then be infertile and incap-
able of embryo development.

whose name is drawn obtains a letter
of introduction to the young woman

HAS WILLIAMSBURG FOUND THE SAME

The Answer Is Found In The Straightforward Statement of a Williamsburg Resident

We have been reading week after week in the local press of Barbourville citizens who have been rid of distressing kidney and bladder troubles by Don's Kidney Pills, and we have often wondered whether the same high opinion of this medicine is to be found in our neighboring towns. This frank and earnest statement by a well-known and respected resident of Williamsburg will set this doubt at rest.

L. E. Martin, plumber, 11ver St., Williamsburg, Ky., says: "My kidneys were too free and then acted irregularly. I suffered from a soreness and dull ache across my back. I used Don's Kidney Pills, and they relieved the ache in my back and regulated my kidneys."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Don's Kidney Pills—the same that Mr. Martin had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. Adv.

SHELBY CHADWELL BURNED TO DEATH

Shelby Chadwell, the fifteen year old son of Mr. and Mrs. Jerry Chadwell of Girdler, was burned to death January 11th, at 11 o'clock. Death was due to the bursting of the mill boiler belonging to Butler Shelly on the Henry Stacy farm. The boy was busy working the mill when the explosion occurred. He lived about twelve hours after the accident.

The remains were interred in the Zack Carty graveyard, the funeral service being conducted by Rev. W. N. Epperson. The sympathy of the entire community is with the bereaved family in the hour of their trial.

A FRIEND.

During a fire alarm rush from on Main Street Thursday, Orville Hammons, son of Matt Hammons, fell in front of an auto but fortunately the car was brought to a halt before either injuries then a bump and a slightly bruised knee resulted.

Mrs. William Chamberlain is very sick with typhoid fever.

Mrs. John Croley is suffering from an attack of appendicitis.

Miss Gladys George is back in school having made a complete recovery from a recent attack of pneumonia.

Jeff Carnes of Walker was in town Thursday in connection with a peace warrant brought by E. B. Asher of Walker. After taking out the peace warrant, Asher was shot near the heart, the bullet lodging in the right hip. The cause of the trouble is unknown.

UNION COLLEGE NOTES

Every Tuesday begins a new week and January 10th began the third. Everything is going in fine shape especially the measles. Several in both dormitories are confined to their rooms with this malady.

Miss Hattie Minter, an academic student, is at present in Dr. Logan's Sanitarium where she is recovering as rapidly as possible from an operation for appendicitis.

Miss Bess Elrod was surprised by a visit from her mother last Friday. Bess has quite recovered from her recent attack of tonsillitis and spent the week end with her mother in Corbin.

Miss Jane Keith, who has been very ill for the past week, was taken on Sunday to her home in Manchester where she can receive constant attention from her father who is a physician. Jane is our class president; she always has a smile and a joke for everybody and there is a "loud lonesome" in our midst since she left. We hope for her speedy recovery to health and return to us.

Miss Love Morris returned to her work last Thursday after several days of illness.

Alho Mr. Trooper, our athletic instructor, was away Saturday night the indoor rhythmic games were held in the gymnasium as usual with Prof. Humfleet in charge. There was a swift basket ball game between the College and Junior Academy Class with a score for the Juniors of 13 to 4.

Everyone at the College seems to be enjoying the swimming pool, unusually nowadays. On Monday both the pool and the basket ball floor were in use nearly all day.

The business men of the town are finding a great deal of pleasure in their training class in Union's new gym.

A basket ball team composed of young men of the town who have been practicing on U. C.'s floor, played an interesting game at La Follette, Tenn., last Saturday winning with a score of 27 to 19.

Prof. Ahler played his new saxophone with the orchestra in Pineville Monday evening.

The literary societies met Saturday at the usual time. The Utopians gave their regular program and the Delphians had a parliamentary drill given by their president, James Blair.

Last Friday morning we welcomed our Board of Education to our chapel platform. On such occasions we always expect a jolly speech from each of our honored guests but this time Dr. Johnson of the Centenary movement gave the talk of the hour. He emphasized preparedness for living setting forth clearly the difference between the faith of presumption and the faith of venture. Dr. Johnson was an inspiration to us all.

Supt. E. B. Hemphill made a business trip to Frankfort and Louisville last week.

Dickinson and Mr. Sam Cawn will leave for Cincinnati the first of the month where they will visit the home office and buy several car loads of automobiles. They will study while there the best cheap priced car on the market, which they have practically decided upon but which they do not desire to announce at this time as they wish to give the patrons of their garage a nice surprise in this car. As a hint they have stated that the car they are going to bring out tomorrow everything at the price in the New York Auto Show, the largest Auto Show in the world which ends this week.

They hope to have these cars here on display at their coming opening which will probably be March 1st, 1921, at which time they expect to open their new building and shops to the public for inspection and get their manager and mechanics introduced to the auto owners of the city. They expect to have a very elaborate opening and have engaged the services of an orchestra for that date for special music. Other entertainments will be given.

THE GREEN GAMBRELL CASE

Considerable interest has been aroused during the week over the trial of Green Gambrell for the killing of his father-in-law, Jim Phillips two weeks ago.

The case was called Monday morning and all that day was spent in preparing a jury. Tuesday morning the District Attorney, after the statement of the case, produced witnesses for the prosecution, the main ones being Emie Riley, Betty Smith and a little ten year old boy who were at or near the house when the shooting took place.

Dr. John G. Tye was called as expert evidence as to the nature of the wounds which caused Jim Phillips' death. Several other witnesses were called, among them a son of the deceased who recounted what transpired at the Phillips house prior to the shooting. Others were called to testify to the character of the defendant.

The testimony of the first three witnesses was to the effect that Jim Phillips and Green Gambrell were seen together when still about one hundred yards from the house. It was said Phillips appeared to be leaning upon Gambrell but the little boy was very emphatic in saying that Jim Phillips had Green Gambrell by the collar. Phillips stopped at the gate and Gambrell went on in to the house in search of his wife who had preceded them to the Riley home. Phillips, who apparently had been drinking, had his pistol in his hand but put it in his pocket at the suggestion of Betty Smith.

Gambrell had gone thru the house and up on the mountain at the back of the house in search of his wife. He returned to the gate and asked Phillips "Is come into a good man's house where there was a good fire." Phillips, it is alleged, at sight of Gambrell pulled his gun but followed him on into the house and asked for a comb. While Betty Smith went to find a comb a struggle for possession of the gun started and Gambrell it is alleged wrenched the gun away from Phillips and struck him over the head with the butt when the shot which ended Phillips' life was fired.

Emie Riley, the only eye witness, stated that Gambrell put the gun to Jim's neck and fired. Medical testimony was to the effect that Phillips was shot thru the neck and back of the head, the bullet entering the left side of the neck, ranking upward and coming out back of the right ear.

Sawyer Smith, attorney for the defense, asked for an adjournment until Wednesday morning which was granted.

Wednesday morning the defendant was placed upon the stand in his own defense. He told of some differences and disagreements he had had with deceased and then described the events of the day prior to the shooting. It appears that Jim Phillips had sent for Gambrell and his wife to come and visit them. On the morning of the day in question he and his father-in-law took Green's suitcase and went after some moonshine. They obtained two and one quarter gallons and returned to the house and drank half a quart of the liquor between them. According to Gambrell's statement Phillips was becoming angry so he took Phillips' shot gun out and put it behind the corner of the barn. Phillips' son had started out. Jim followed him, already testified that he had taken it from this spot and hidden it in another place. Gambrell said he was becoming afraid of Phillips so he decided to go on down to Riley's and caught up with him and marched him down to the Riley gate. From this point onwards his testimony was the same as that of Emie Riley, Betty Smith and the little Riley boy up to the time the struggle com-

meuced. In describing this part of the affray, Gambrell stated that he saw the gun was loaded and cocked and that Jim Phillips grunted his teeth. At this point Gambrell grabbed the gun from Jim and struck him on the head with the butt. When he attempted to strike Jim on the head the second time he ducked and the butt of the pistol struck him on the shoulder and discharged. At this point the testimony of the defendant and the Riley children differs. Gambrell states that Jim did not fall but, still struggled for the gun and a second shot was fired and went wild. The witness for the prosecution stated that Jim fell immediately after the Gambrell also testified that he given himself up to the following day.

Only one other witness was called by the defense. This was a boy who is at present in Union College. He stated that he had some months before he would kill Green Gambrell he ever came to his house.

Sawyer Smith in a brief argument for the defense showed that the defendant was in fear of his life and had taken the gun from him and made no attempt to shoot him.

Judge B. B. Golden, District Attorney who had called away, in addressing his able manner, said that was a test of the jurors and the time outlaid and blooded Knox County. The case went to the jury.

The case went to the jury Wednesday afternoon and the jury was hung with no verdict.

The Union College Varsity Squads both boys and girls, journeyed to Richmond Saturday afternoon when they met their opponents in a basket ball game. The girls game was fast and exciting from the very beginning, but the Union girls soon proved to be superior to their opponents. When the game ended the score stood 15 to 7 in favor of the Union five. Union's girls showed excellent team work as to their passing and ability to handle the ball.

The next game was that of the boys. Both teams started off at full speed, and the first half ended with a score of 13 to 8 in favor of the Union five. Then in the second half Union came back better than ever, and with a determination which lasted through the game, ending 24 points and making the entire game's score 27 to 13 in favor of Union. Both of Union's teams were complimented, time and again for their excellent teamwork and style of playing thruout the evening.

We were informed Monday of the probable advent of one of a chain of grocery stores which carries large advertising. The head of this firm has been watching the local advertising columns of the Mountain Advocate and has found grocery advertising does not exist. He has thus been led to the conclusion that Barbourville offers a fine field for a progressive, advertising grocery firm and will probably place a chain store here.

Merchants report an encouraging inclination to buy once more. This will mean, should the tendency be general, the opening of factories over the country and the resumption of more normal conditions. Let us be thrifty and stay thrifty by all means, where it is good sense to be thrifty where it is good sense to be so, but let us help the general movement to create a demand for essentials by no longer denying ourselves the things we really need.

Fallen Asleep

On January 12th at 9:30 A. M. Mrs. Fielding Gibson, of Artemus, Ky., passed into the beyond where she is now enjoying the rewards promised to all the faithful. In her death the husband has lost a good wife, the children a good mother, the church a faithful member. Our loss is her gain. The funeral service was held at the Christian Church in Artemus and the remains laid to rest in the Barbourville Cemetery. Brother Gibson extends his heart felt thanks to the many friends for their kindness in his trying hour. Contributed.

Indigestion

Many persons, otherwise vigorous and healthy, are bothered occasionally with indigestion. The effects of a disordered stomach on the system are dangerous, and prompt treatment of indigestion is important. "The only medicine I have needed has been something to aid digestion and clean the liver," writes Mr. Fred Ashby, a McKinney, Texas, farmer. "My medicine is

Thedford's BLACK-DRAUGHT

for indigestion and stomach trouble of any kind. I have never found anything that touches the spot, like Black-Draught. I take it in broken doses after meals. For a long time I tried pills, which gripped and didn't give the good results. Black-Draught liver medicine is easy to take, easy to keep, inexpensive."

Valuable Discovery.

A California chemist is said to have discovered a process by which platinum is extracted from the ore which also yields gold and silver. The result is that one company which formerly worked the material for gold and silver alone, recovering \$40 a ton of material, is now getting \$2,400 a ton in gold, silver and platinum.

Mary Magdalene.

It is a fairly general opinion that Mary Magdalene derived her name from the town of Magdala, to which she belonged. Some scholars think that they have found her name in an old Hebrew root, and from that derivation they call her Mary of the apostles. Nobody really knows why she was called Magdalene; but she is described in the Gospels as that woman out of whom Jesus Christ cast seven devils. There is no scriptural reason for identifying her with a woman of light character.
